DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 27, 38, 28, 39, 43 and 46 are rejected under 35 U.S.C. 103(a) as being unpatentable over Flood et al '477 in view of Devlin (US 5,711,702).

Flood et al discloses the invention as claimed except for the "non-uniform portion" in the canted or/and uncanted portion. However, it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the canted or uncanted portions of Flood et al with rounded or pointed projections in view of the teaching of Devlin in order to reduce the risk of delamination (see column 7, lines 10-22 and column 2, lines 16-25).

Response to Arguments

3. Applicant's arguments filed 3/14/2005 have been fully considered but they are not persuasive.

Contrary to applicant's argument, it is extremely well known to add recesses and/or projections planar surfaces between a polycrystalline diamond layer and a tungsten carbide substrate of a polycrystalline diamond compact (PDC) to improve the bond between the diamond layer and the substrate to inhibit spalling and delamination. This advantage would have motivated one skilled in the art at the time the invention was made to provide such recesses or/and projections on the planar facing surfaces between the diamond layer and the substrate of Flood et al.

Allowable Subject Matter

4. Claims 9-16, 20-26, 29-37, 40, 41, 44 and 45 are allowed.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
